

## GAS Full Text Options (原文献へのリンク)

◆ SciFinder で検索した結果から、論文や特許を簡単に入手できます。

- 雑誌論文などの非特許文献、および特許
  - ・文献一覧画面から Other Sources をクリック (①)
  - ・詳細表示画面から Link to Other Sources をクリック (②)

The image shows two screenshots from the SciFinder interface. The left screenshot shows a search results list with two entries. The first entry is titled "Internal electrode structure inside inductor element and its fabrication method" and includes a diagram of an inductor element. A yellow box labeled "文献一覧画面" (List of references screen) points to the search results. A blue box labeled "① 文献一覧画面から Other Sources をクリック\*" (Click Other Sources from the list of references screen\*) points to the "Other Sources" link under the first entry. The right screenshot shows the "REFERENCE DETAIL" page for the first entry. A yellow box labeled "詳細表示画面" (Detailed view screen) points to the top of the page. A blue box labeled "② 詳細表示画面から Link to Other Sources をクリック" (Click Link to Other Sources from the detailed view screen) points to the "Link to Other Sources" link at the top of the page. Below the screenshots are two blue arrows pointing downwards.

The image shows a screenshot of the CAS Full Text Options page for the article "Magnetic Elastomers for Stretchable Inductors". The page is in Japanese. A green box labeled "電子ジャーナルのリンク" (Link to the electronic journal) points to the "JAICI TEST10" link. Another green box labeled "有料の原報複写サービス" (Paid original reproduction service) points to the "有料の原報サービス" (Paid original reproduction service) section, which includes links for "原報のダウンロード" (Download original) and "原報複写注文" (Order original reproduction).

The image shows a screenshot of the CAS Full Text Options page for the patent "Internal electrode structure inside inductor element and its fabrication method". The page is in Japanese. A green box labeled "特許庁へのリンク (特許明細書入手)" (Link to the Patent Office (Obtaining patent specification)) points to the "KIPRIS" link, which includes a "Search" option for the patent at Espacenet.

The image shows a screenshot of the original document page for the article "Magnetic Elastomers for Stretchable Inductors" from ACS Applied Materials & Interfaces. The page contains the title, authors, abstract, and introduction.

\* **PATENTPAK** のリンクがある場合は、文献一覧画面に **Other Sources** のリンクは表示されません。詳細表示画面の **Link to Other Sources** をクリックします。
